

**DESCRIPTION**

P40 Feed AC (33X) is a high protein yield, liquid nutrient supplement. It is an animal-origin free partial feed formulation. When combined with P40 Feed B (Cat # C4542) it provides high-yield protein production in HEK-293 cells.

**RECOMMENDATION OF FEEDING**

During a typical fed-batch protein production, a 3% (v/v) dose of P40 Feed AC is required on day 2 post transfection, paired with a 0.1% dose of P40 Feed B (v/v).

**CONDUCTIVITY**

9.0 – 10.0mS/cm

**pH**

5.5 – 6.5

**STERILITY**

Negative

**STORAGE**

Store at 2-8°C protected from light.
