

## 10X Buffer for M1 DNA Polymerase

Catalog No. M2101

### DESCRIPTION:

This buffer is to be used with M1 DNA Polymerase (M3101), which is a Taq DNA Polymerase. It is supplied as a 10x concentrate and needs to be diluted 1:10 in the final reaction. It is provided either with or without  $MgCl_2$ , and  $MgCl_2$  concentration can be optimized using the  $MgCl_2$  solution.
