

DESCRIPTION

Anti-Sulfotyrosine Monoclonal Antibody is a recombinant antibody made from CHO cells.

SPECIFICITY

This product recognizes sulfated tyrosine residues on various proteins. It does not recognize phosphotyrosine or unmodified tyrosines. This product is predicted to recognize any sulfotyrosine, regardless of surrounding amino acid sequence.

STORAGE

Store at -80°C. Avoid repeated freeze / thaw cycle.

Short term store at +4°C for 1-2 weeks.

Storage buffer

HEPES pH: 7.0 with 0.05% Sodium azide

TESTED APPLICATIONS

WB, IP, Competitive ELISA

ISOTYPE

human IgG1 heavy chain and kappa light chain
